Allowable Subject Matter

1. Claims 3-7 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 3-5 recite a control device for an automatic synthesis machine comprised of a display device for displaying at least part of vessels housed in a reactor, a selection means for selecting one or more vessels displayed on the display, and a protocol creation/execution/storage means (cl. 3-5 respectively) for creating/executing/storing a protocol prescribing the synthesis procedure operation related to said vessels. The protocol creation/execution/storage means is connected to the display device such that when the selection means receives data from protocol creation/execution/storage means, the display device displays the selected vessels in a manner such that they can be identified on the screen from the non-selected vessels, together with the operation content related to said selected vessels. The Examiner did not find prior art that teaches or suggests a display device that displays the selected vessels in a manner that they can be identified from the non-selected vessels. Claims 6 recites a synthesis machine having a plurality of vessels, a selection means for selecting a specific vessel, a protocol execution means and an analysis means for analyzing protocol. The analysis means analyzes a series of command and picks out commands related to a selected vessel from the protocol and checks the command for errors. Claim 7 recites a control device that also contains the feature of checking the operational commands. The Examiner did not find prior art that teaches or suggests this feature. The Examiner

considers the reference Wang to be the closest prior art. Wang teaches a reaction system with control features that are shown on a display.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
